The basic principle is that “A” and “B” are the judges, and “Ref” is used when “A” and “B” disagree.

In this class, “A” placed 6115 first, “B” used 6214 so we need the Referee. He placed 6115 over 6214 so 6115 wins the class.

Note: judges rotate for each class, in other words, “A” becomes “B”, “B” becomes “Ref” and the “Ref” becomes “A”. In the case of division champions, they do not rotate from Champion to Reserve.

A key to understating the system is that once an animal is placed, ignore it (in this demo, it will be blanked out). So, after taking out 6115, we look at 6191 and 6214 from "A" and "B". The Ref used 6191 over 6214 which places 2nd.

After taking out 6191, we look at 6156 and 6214 from "A" and "B". The Ref used 6214 over 6156 which places 3rd.

After taking out 6214, both "A" and "B" have 6156 next so we do not need the Ref (even though he agreed). 6156 places 4th.
